Kick off meeting

## ALGAENET4AV

[Training network for exploring microalgae diversity for the development of novel antiviral compounds](#)

The main objective of the *AlgaeNet4AV* project is the **characterization, and exploitation of microalgae biodiversity** as a source for **bio-based cosmetics with antiviral potential towards influenza and coronavirus pandemic strains**. These products aims to be used as **non-drug interventions** for eliminating the propagation of harmful viruses and directly contribute to reduce the risk and speed of transmission, acting as first-line weapons towards pandemic outbreaks.

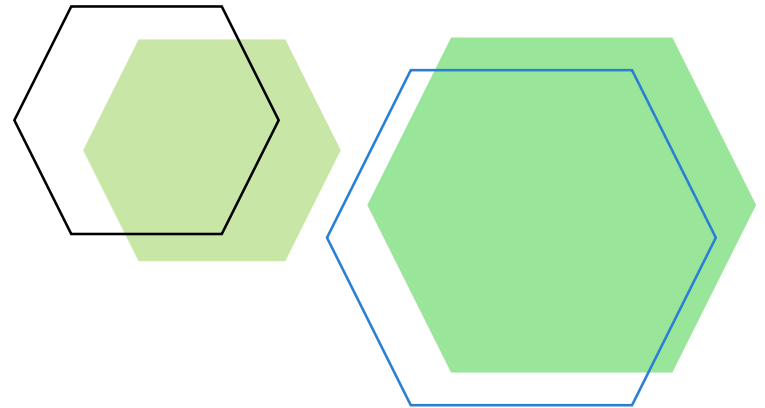

# AlgaeNet4AV

## PROJECT START

The project AlgaeNet4AV is a Marie Curie Rise action (ID 101086437)

It officially started on the 1<sup>st</sup> of January 2023 and will last for 48 months. The kick off meeting took place in Thessaloniki at the premises of INAB CERTH on the 26<sup>th</sup> of January 2023
